What Does 1health Do?

1health makes it easy to rapidly build,
test and deploy cross organizational
healthcare solutions without needing
to code enabling seamless
collaboration

1health: Enable Cross-Organizational Workflows

Invitation to join Elevance on the 1health Network

What is the 1health network?

- Across America, countless patients miss out on crucial health screenings every year
- Starting in 2025, Elevance plans to address this deficiency in a new, innovative way
- Patients needing testing will be funneled into the 1health network
- Labs who have joined the network will be eligible to serve local demand

Frequently Asked Questions:

Question	Answer
Is it hard to join?	1) Register with 1health (10 minutes) 2) Attend an introductory webinar (1 hour)
What is the cost?	Licensing the 1health platform costs \$99 a month
Do I need to do IT work?	No! This is an online platform that can be used without any integration.
Can I integrate to my LIMs?	Yes, the platform supports HL7, API or other methods of integration.
How does billing work?	Each service that closes a gap will have a predetermined fee paid by Elevance. For instance, A1c tests today close gaps worth \$100-\$200.

Frequently Asked Questions:

Question	Answer
What is the required test menu?	To start, relevant tests include HbA1c, FIT, and Kidney Health (eGFR + uACR). More will be added as the network grows.
If I am not integrated, how do I provide results?	Drag and drop documents into the 1health platform, we'll take care of the rest!
If I want to integrate, what is my next step?	Register for your 1health account. Then, you can go to your organization settings and access our APIs.
Can and how will insurance be used?	The 1health platform supports insurance orders, but this program is cash based for services delivered.

Why 1health? - Elevance Network

1health is a flexible cloud software with built in tools for Labs, Healthcare providers, and Payors

Some Capabilities include..

- ✓ Lab ordering and resulting
- ✓ Supply logistics management
- ✓ Increase visibility into partner and patient performance
- ✓ Instantly find missing / incorrect patient data
- ✓ Access tools to track KPIs real time
- ✓ Drag and Drop workflow automations
- ✓ Cash and Insurance payment collection

Elevance chose to build their network on top of the features 1health has because of its flexibility, ease of use, and unique ability to share workflows between organizations.

Why 1health? - Lab Solutions

Labs will play a critical role in closing care gaps for Elevance. For this reason, 1health was designed with labs in mind and provides the essential tools and automated workflows to support closing these gaps.

Not only can labs use the 1health platform to close care gaps on behalf of Elevance, they can also use it to build, tests and launch their own unique workflows specific to their use cases and business needs.

1health Lab Offering: Connects All Stakeholders Enabling Seamless Collaboration
